

Flamehold®

Heat Resistant Compound

Features

- Firmly Holds Parts While Welding
- Protect Parts From Overheating
- Will Not Deform Or Swell While Welding
- Simple To Apply and Remove
- Will Not Soil Or Corrode
- May Be Used Over and Over By Adding Water

Overview

Flamehold is a special heat resistant compound that has many functions related to welding. **Flamehold** may be used as a fixture to hold parts together while welding. It is also an ideal heat shielding compound that protects heat sensitive areas near the welding zone.

Available in 5# Containers

Rapid Steel Epoxy

Steel Epoxy Putty

The ultimate solution for small or emergency repairs. **Rapid Steel Epoxy** is easy to use and mistake proof. Bonds instantly with superior strength for rebuilds, repairs and much more. Ideal for repairing and sealing holes or cracks on any application. Build-up on areas can be filed, drilled and machined.

To use, cut off a piece of Rapid Steel and knead it in your fingers until it is a consistent color. Apply it to the surface being repaired.

Available in a 4oz Steel-reinforced putty stick.

Gemini® Anti-Spatter

Spatter Prevention Spray

This **Gemini Anti-Spatter** aerosol offers a fast, convenient way to prevent sticking of spatter. It is excellent for use in the protection of MIG gun nozzles, tips, electrode holders or any area that needs to be spatter free after welding.

Available in a 16oz aerosol can.

LaserBest® Cutting Fluid

Drilling and Cutting Lubricant

All lubricants are not created equal. Our quality **LaserBest** cutting fluid is specially designed to increase the lifespan of your **LaserBest Drill Bits** and in other applications where a cutting fluid is called for. The foaming action of this product keeps the lubrication in place where you want it without running, reducing the need to re-apply.

Available in a 12oz aerosol can.

Galv-Coat

High Solid Zinc Spray

This easy to use **Galv-Coat** spray gives a coating of practically pure zinc fluid. The cold compound stops rust instantly by galvanic or electrochemical action. It gives a lasting protection against further rusting and rust creepage.

Available in a 12oz aerosol can.

Cryotherm® Degreaser

Residue-Free Degreaser For All Applications

Cryotherm Degreaser instantly penetrates and removes dirt, oil, grease, wax, moisture, and much more. It evaporates completely, leaving no residue. The spray is non-flammable, non-corrosive, and non-staining.

Available in a 18oz aerosol can.
