

# Conditioning Discs

## For Use On Die Grinder or High Speed Cutter

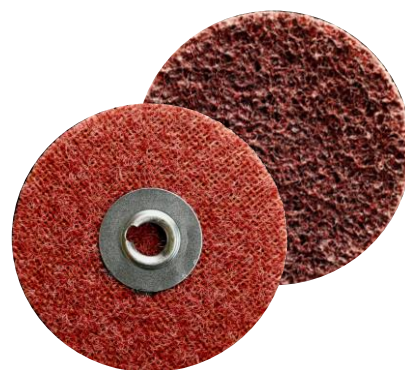

For removing rust, gaskets, corrosion or any metal preparation application where limiting metal removal is key.

### Features

- High quality mineral abrasive for fast cutting.
- Tough backing for increased durability.
- Quick-Twist system provides a secure connection to the mandrel.

### Characteristics

Our high-performance conditioning discs are made with a tight fiber web and woven backing impregnated with a specially processed mineral for fast and long-lasting performance. Our Quick-Twist backing pad and hook and loop fastening system ensures a secure connection. Commonly used for deburring and removal of paint, rust, adhesives and gaskets.

### Options

Available in 2" and 3" diameter with different grits. Mandrel and backing holder required.

Part #	Style	Size	Grit

995709	Quick Change Mandrel	Required for Backing Holder	

# Die Grinding Assortment Kit

For Use On Die Grinder or High Speed Cutter

Our assortments cover all your air tool abrasive needs. From cutting to grinding to polishing, everything is here in a handy drawer, ready when you are.

## Features

- Designed To Cut Quicker and Last Longer
- Superior Carbide Formulations
- Rockmount Quality Throughout
- Metal Drawer Fits In Standard Cabinets

## Characteristics

At Rockmount our motto is “Designed to Weld Stronger and Last Longer” and that philosophy carries over to our abrasives too. Our cutoff wheels have a superior fiberglass foundation for extra durability and safety. Our flap discs are built with a high thread count fabric flap designed to outwear the competition. These assortments include the highest quality and longest lasting abrasives available. They include the mandrels and backing pads in a steel case that fits in your standard drawer cabinet.
